

# Yanbo Zhou

Ph.D. Candidate  
Non-Volatile Systems Lab (NVSL)  
University of California, San Diego

yaz093@ucsd.edu  
(858) 333-0347  
<https://yanbozyb.github.io/>

## Research Interests

My research focuses on computer systems for cloud and AI infrastructure, with a particular emphasis on memory and storage systems. My goal is to make computer systems faster, more resource-efficient, and more reliable for traditional and agentic cloud workloads at large scale.

## Education

## Academic Service

## Reviewer

2026 ACM Transactions on Storage (TOS), IEEE Computer Architecture Letters (CAL)

## Artifact Evaluation Committee

2026 USENIX FAST, USENIX OSDI

2025 ACM ASPLOS, ACM EuroSys, ACM SOSP

## Professional Experience

09/2023 - **University of California, San Diego** San Diego, USA  
Present *Graduate Student Researcher, Non-Volatile Systems Lab (NVSL)*

Led research on memory and storage systems for future cloud and AI agent infrastructure. The research work has been published at SOSP'25 and OSDI'26.

Summers **Samsung Semiconductor** San Jose, USA  
 24/25/26 *Software Engineering Intern, Global Open-ecoSystem Team (GOST)*

Worked on profiling emerging memory and storage hardware, such as CXL memory and large-capacity SSDs, and identified system-level bottlenecks.

01/2019 - **Alibaba Cloud** Hangzhou, China  
06/2023 *Senior Software Engineer, Elastic Block Storage (EBS) Team*

Led research and development of block storage systems in the cloud to address challenges of deployed systems at scale and advance cloud storage systems. The research work has been published at USENIX ATC'20, EuroSys'24, and FAST'26.

Jul 2017 - **Intel Corporation** Shanghai, China  
Dec 2018 *Software Engineering Intern, Storage Performance Development Kit (SPDK) Team*

Worked on SPDK project and contributed to the polling-based kernel-bypass NVMe virtualization solution Vhost-NVMe and tools for kernel-bypass storage stack.

## Teaching Experience

Fall 2025     **Introduction to Computer Architecture: A Software Perspective (UCSD CSE 142)**  
*Teaching Assistant*

Head TA for an undergraduate computer architecture course with 90+ students; led four tutors and collaborated with instructor (Prof. Steven Swanson) to design assignments, quizzes, and exams. Held office hours to help students debug and reason through technical issues related to computer architecture.

## Mentoring

|           |                                                                                                                                        |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------|
| 2025-2026 | <b>Leping Yang</b> , Ph.D. student at Shanghai Jiao Tong University<br>Achievements: First-author paper at FAST'26 (Best Paper Award). |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------|

2019-2020 **Shuai Xue**, M.S. student at Shanghai Jiao Tong University (now at Alibaba Cloud)  
Achievements: First-author paper at USENIX ATC'20.
